An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

In claim 4, line 2, "flow" has been changed to - - flows - - (to correct diction).

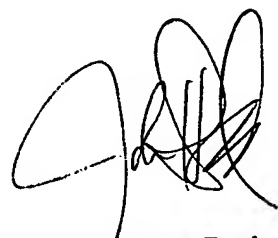

In claim 7, line 1, "claim 1" has been changed to - - claim 4 - - (to correct an obvious antecedent basis problem).

The following is an examiner's statement of reasons for allowance: claim 1 defines patentable subject matter relative to the cited prior art because the evaporator bypasses cited here always bypass air to a point downstream of the entire evaporator and not to a position to allow the bypass air to mix with cooled air from a first portion of the evaporator and then subsequently flow through a second cooling portion of the evaporator.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
